## PROFESSIONAL PROFILE

Data analyst with experience developing Power BI dashboards, integrating multi-source datasets, improving reporting reliability and translating complex data into clear business insights. Skilled in SQL, PostgreSQL, Power Query, DAX, Excel, Power BI and Tableau, with a strong foundation in healthcare data quality assurance and regulated data handling. Combines strong analytical ability and practical experience supporting workforce systems with knowledge of operational processes, stakeholder requirements, and data governance. Brings strong problem-solving skills and an evidence-based approach to decision-making.

## CORE COMPETENCIES

- Power BI dashboard design and development
- Advanced Excel, Tableau and SQL
- Workforce and HR data administration (Kronos)
- Data quality assurance, validation and integrity checks
- Reporting for leadership and operational decision-making
- Compliance and audit-ready reporting
- Stakeholder liaison and cross-team coordination
- GDPR and data protection (formal training completed)
- Managing competing priorities in fast-paced environments
- Continuous improvement of reporting processes and digital tools

## TECHNICAL SKILLS

- **Data Analysis:** Power BI, Excel, Power Query, DAX, SQL, PostgreSQL, Tableau, SPSS
- **Working knowledge:** Data visualisation, dashboard development, data validation, GDPR-aware data handling

## PROFESSIONAL EXPERIENCE

### Helpdesk Adviser

*August 2025 – Present*

*Equans, Stoke-on-Trent*

- Supported the rollout of Kronos workforce management systems, contributing to the onboarding of approximately 300 employees into a workforce of around 1,400 staff.
- Maintained structured workforce records, shift schedules and approval workflows, ensuring information remained complete, consistent and suitable for review.
- Worked with managers and contractors to resolve outstanding issues while maintaining accurate operational records.
- Reviewed subcontractor invoices against work-report sheets, identifying discrepancies and approving or disputing invoices as appropriate.
- Worked across Helpdesk, Administration and Procurement functions to investigate and resolve data and system issues.
- Applied a methodical approach to managing fluctuating workloads and ensuring reporting information remained current and reliable.
- Completed formal GDPR and data protection training, applying these principles when handling sensitive employee information.

### Data Analyst

*July 2025 – February 2026*

*Amdari Inc., UK*

- Used Tableau and Excel alongside Power BI to support data exploration, reporting and visualisation.
- Build and maintain Power BI dashboards used by senior leadership to monitor performance.
- Developed dynamic KPI reporting and interactive filters to allow stakeholders to investigate performance from different perspectives.

- Translated complex datasets into clear visual outputs for stakeholders with different levels of technical expertise.
- Establish validation rules and quality checks that identify and resolve data discrepancies before they reach final reporting.
- Coordinate reporting deadlines across teams, liaising with stakeholders to secure timely, accurate inputs.

### Administrative & Data Support Officer
*July 2021 – January 2025*

*Mazal Diagnostics LLC, USA (Remote)*

- Managed and quality-assured large volumes of sensitive patient and operational data within a healthcare environment operating to data protection standards equivalent to GDPR.
- Reviewed healthcare records systematically to identify discrepancies, investigate root causes and correct inaccuracies.
- Maintained strict confidentiality when handling personal and clinical information in accordance with information governance principles.
- Supported the training of new colleagues by explaining data handling procedures and quality assurance processes.
- Identified recurring patterns of data errors and redesigned the organisation's data classification framework, improving reporting consistency and reducing repeat issues.

## EDUCATION

**Master of Public Health (MPH)** *2024*

*Oxford Brookes University, UK*

**Doctor of Medicine (MD)** *2022*

*V.N. Karazin Kharkiv National University, Ukraine*

## CERTIFICATIONS & CPD

- **Data Analytics** — 10Alytics (2025)
